Tehama County Smart Business Alliance

Waste disposal is expensive.
Recycling is cheaper.

Why Recycle? Because it makes good business sense.

- Recycling offers opportunities to **save money**.
- Recycling recovers valuable materials.
- Recycling creates jobs in California by providing materials for recycling manufacturing facilities.
- Recycling helps create a healthy environment for the community and future generations.

Why Join? AB 341 Compliance.

State law **requires** businesses generating four or more cubic yards of waste per week to have a recycling program in place. The Tehama County Smart Business Alliance provides the tools and resources to implement a successful recycling program.

Sign up today to get started! **It's FREE and EASY!** Participating businesses receive FREE recognition in local newspapers and the Chamber of Commerce. Contact the Recycling Coordinator at 528-1103.

Questions? Call (530) 528-8500 or (800) 433-6924

Set Out Your Waste Properly

Please place your containers out the night before your service day, out at the curb where your driveway meets the street, at least six feet away from any nearby obstacles or vehicles. Carts placed away from the street or too close to other objects may not get picked up.

Reminder: street sweeping begins mid October 2016 and extends through the middle of May 2017. Please remember to move your vehicle the night before your scheduled sweep day.

Only items placed in your recycling bin will be sorted for recycling. Trash is never sorted to recover recyclables - it is buried upon arrival at the landfill. Make sure you place your recyclables in your recycling bin!

New! Prescription Drug Disposal Kiosk

Prescription drug disposal is now available year-round to Tehama County Residents, free of charge. The kiosk (pictured) is located in the lobby of the Tehama County Sheriff's Office at 22840 Antelope Blvd., Red Bluff, and residents can drop off

prescription medication Monday through Friday 8AM-5PM. Having a regular disposal option for prescription drugs helps to keep them out of the hands of children or those who may abuse drugs, as well as protects our environment by keeping it out of our waterways. Solid pill and liquid medications, including controlled substances, can be disposed of in the kiosk. The program is completely anonymous, no identification required and no forms to sign. For more information call 528-1103.

All residential garbage service includes recycling service. If you do not have a blue rollout cart, please call 528-8500 to schedule cart delivery at no additional cost.
